

Turn Key Solutions' Gerry Solis Recognized as Partner MVP – Technical at Scale Computing Platform//2026 Summit

Baton Rouge, LA – April 17, 2026 – Turn Key Solutions (TKS), a leading IT services and managed solutions provider based in Louisiana, is proud to announce that Gerry Solis, Consulting Services Manager, has been named Partner MVP – Technical at the Scale Computing Platform//2026™ Summit, held earlier this month in Las Vegas.

The Partner MVP – Technical award recognizes individuals who demonstrate exceptional technical expertise, leadership, and impact within the Scale Computing partner ecosystem. Gerry was honored during Scale Computing's annual flagship conference, which brings together top technology partners and service providers from across the globe.

Gerry's recognition reflects not only his deep technical knowledge, but also the team-first leadership approach he brings to Turn Key Solutions. As Consulting Services Manager, Gerry works at the intersection of architecture, execution, and client outcomes; guiding TKS engineers, collaborating across departments, and helping clients design resilient, scalable infrastructure that supports real-world business demands.

"Gerry's leadership elevates everyone around him," said Henry D. Overton, President of Turn Key Solutions. "This award is a testament to his technical excellence, his ability to mentor and empower our team, and his relentless focus on doing what's right for our clients. We see this impact every day at TKS." Under Gerry's leadership, TKS has strengthened its technical consulting practice, delivering solutions that prioritize stability, security, and operational simplicity; key factors in helping clients across the Gulf South reduce risk and modernize their IT environments. His hands-on involvement, paired with a strong commitment to collaboration and continuous improvement, has helped position TKS as a trusted partner for complex infrastructure initiatives.

The Scale Computing Platform//2026™ Summit Awards highlight partners and professionals who are driving innovation and excellence within the edge computing and technology services ecosystem. Gerry was one of a select group of individuals recognized globally for technical leadership at this year's event.

"This award truly reflects the strength of the team around me," said Gerry Solis. "At TKS, we collaborate, we challenge each other, and we stay focused on delivering outcomes that matter to our clients. I'm grateful to be part of a company that values people, growth, and accountability at every level."

Turn Key Solutions congratulates Gerry on this well-deserved recognition and celebrates the entire TKS team whose dedication, teamwork, and shared standards of excellence continue to drive results for clients throughout Louisiana and beyond.

About Turn Key Solutions
